General Instructions

A taxpayer whose waterborne cargo is loaded onto or unloaded from an ocean carrier calling at the State-owned port terminal at Wilmington or Morehead City is allowed a credit against its corporate or personal income tax. The amount of credit is equal to the excess of the current year's wharfage, handling, and throughput charges assessed and certified by the Ports Authority over the average of the certified charges over a three year period. The amount of credit allowed cannot exceed fifty percent of the current year's income tax liability reduced by the sum of all other credits. Any unused credit may be carried forward for five taxable years.
