

Purpose of Form NC-478 Series

Use the Form NC-478 series to calculate and report tax credits that are limited to 50% of your tax less the sum of all other tax credits that you claim. Forms NC-478A through NC-478H are used to calculate the specific credits without regard to the 50% limitation. Form NC-478 is used to total the specific credits, to determine if the 50% limitation applies, and, if so, to allocate the limited total credit among the specific credits.

General Instructions

Listed below are the tax credits that are subject to the 50% of tax limitation and the NC-478 series form on which the credit is claimed:

- Creating Jobs (Form NC-478A)
- Investing in Machinery and Equipment (Form NC-478B)

Each of the above tax credits is available to individuals, partnerships, estates, trusts, and corporations except the tax credit for manufacturing cigarettes for export, which is available only to corporations. Insurance companies can claim any of the credits listed above except the credit for use of North Carolina ports and the credit for manufacturing cigarettes for export.

These forms are to be used by each individual, partnership, corporation (domestic or foreign), estate, trust, and insurance company that claims a tax credit that is subject to the 50% of tax limitation. Form NC-478 and the applicable form for any specific credit must be placed at the front of your tax return if you are eligible to claim a tax credit, regardless of whether your tax liability is great enough for you to claim a tax credit in the current period. Corporations must place these forms behind CD-479, Annual Report Form. Certification provided by the Secretary of Commerce must also be attached if you are claiming the credit for creating jobs, investing in machinery and equipment, research and development, worker training, investing in central administrative office property, or technology commercialization. Failure to include these forms with your tax return may result in the disallowance of these tax credits.

Pass-through entities. A pass-through entity must provide sufficient information about the tax credits to its owners or beneficiaries to allow them to complete the Form NC-478 series. The information must be provided on, or as an attachment to, the NC K-1 provided to the owner or beneficiary. An owner or beneficiary should add the credits passed through by a pass-through entity to any credits the owner or beneficiary qualifies for directly when completing the Form NC-478 series.

A worksheet for the computation of tax credits subject to the 50% tax limitation for pass-through entities is located on page 4 of these instructions.

Add Lines 1 through 10 and enter the total on line 11. This is the total amount of tax credits subject to the 50% of tax limitation.

The credit for technology commercialization may be divided between franchise and income tax. For a detailed example of the allocation of credits to pass-through entities, including completed Forms NC-478 and NC-478F, visit our website @ www.dor.state.nc.us

S corporations - If the credit is being claimed against franchise tax, no allocation is required. Complete the applicable tax credit form and enter the amount eligible to be taken in the current year on Form NC-478. If the credit is being taken against income tax, complete the applicable tax credit form to determine the eligible credit to be allocated among the shareholders. The portion of the eligible credit allocated to nonresident shareholders on whose behalf a composite return is being filed is calculated and carried to Form NC-478. The portion of the eligible credit allocated to resident shareholders or nonresident shareholders who are not part of a composite return will not be reflected on the S-corporation's Form NC-478. Example 1 shows how the tax credit for investing in business property is calculated, allocated, and reported on NC-478 and NC-478F by an S corporation. The same principles apply to an S corporation regardless of which credit is being claimed.

The portion of the eligible credit allocated to nonresident partners on whose behalf the partnership pays tax is calculated and carried to Form NC-478. Example 1 also applies to partnerships that are claiming the tax credits for creating new jobs, investing in machinery and equipment, research and development, and low-income housing. Special rules apply to partnerships if the calculation of the tax credit involves a maximum dollar amount. In those cases, the credit is calculated on a partner-by-partner basis. Example 2 shows how the tax credit for investing in business property is calculated, allocated, and reported on NC-478 and NC-478F by a partnership. The same principles also apply to a partnership claiming the tax credits for worker training, investing in central administrative office property, and investing in renewable energy property.

The portion of the eligible credit allocated to the trust or estate is calculated and carried to Form NC-478. The portion of the eligible credit allocated to the trust's or estate's beneficiaries will not be reflected on Form NC-478. Example 1 also applies to trusts and estates.
