General Instructions

G.S. 105-164.14(l) provides that a professional motorsports racing team or a motorsports sanctioning body is allowed a refund of sales and use tax paid by it in North Carolina on aviation fuel used to travel to or from a motorsports event in this State, to travel to a motorsports event in another state from a North Carolina location, or to travel to North Carolina from a motorsports event in another state. For purposes of the refund provision, a "motorsports event" includes a motorsports race, a motorsports sponsor event, and motorsports testing.

Claims for refund are due by December 31 for the prior fiscal year ending June 30; a refund applied for after the due date is barred. The refund provision is effective for purchases made on or after January 1, 2005 and is repealed effective for purchases made on or after January 1, 2011.

The Department will take one of the following actions within six months after the date the claim is filed: send the requested refund to you; adjust the amount of the refund; deny the refund; or request additional information. If the Department does not take one of the actions within six months, the inaction is considered a proposed denial of the requested refund. If you object to a proposed denial of a refund, you may request a Departmental review of the action if the request is made in writing within 45 days of the date the notice of proposed denial was mailed to you. If the Department has not taken action within six months, a request for review can be filed at any time between the end of the six-month period and when the Department takes a prescribed action. If a timely request for a Departmental review is not filed, the proposed action is final and is not subject to further administrative or judicial review.

Use blue or black ink to complete this claim for refund. If you have questions about how to complete this claim, you may call the Taxpayer Assistance and Collection Center toll-free at 1-877-252-3052.
