General Instructions

- G.S. 105-164.14A(a)(6) provides that a taxpayer engaged in analytical services in North Carolina is allowed a refund of sales and use tax paid by it in North Carolina. The amount of the refund is the greater of the following:
 - (1) Fifty percent (50%) of the eligible amount of sales and use tax paid by it on tangible personal property that is consumed or transformed in analytical service activities. The eligible amount of sales and use tax paid by the taxpayer in this State is the amount by which sales and use taxes paid by the taxpayer in this State in the fiscal year exceed the amount paid by the taxpayer in this State in the 2006-2007 State fiscal year.
 - (2) Fifty percent (50%) of the amount of sales and use tax paid by it in the fiscal year on medical reagents.
- Claims for refund are due by December 31 for the prior fiscal year ending June 30; a refund applied for after the due date is barred.
- The refund provision is repealed for purchases made on or after January 1, 2013.
- The Department will take one of the following actions within six months after the date the claim is filed: send the requested refund to you; adjust the amount of the refund; deny the refund; or request additional information. If the Department does not take one of the actions within six months, the inaction is considered a proposed denial of the requested refund. If you object to a proposed denial of a refund, you may request a Departmental review of the action if the request is made in writing within 45 days of the date the notice of proposed denial was mailed to you. If the Department has not taken action within six months, a request for review can be filed at any time between the end of the six-month period and when the Department takes a prescribed action. If a timely request for a Departmental review is not filed, the proposed action is final and is not subject to further administrative or judicial review.
