Complete all information at top of Gas 1200B including legal name (first 30 characters), trade name, address, county, FEIN or SSN, contact person, telephone number, and fax number. This return is due to be filed quarterly by the last day of the month following the close of the quarter.

General Information

This application is to be used to obtain a refund of the road tax on tax-paid motor fuels purchased and used in the operations of taxicabs transporting fare-paying passengers as authorized by G.S. 105-449.106(b). A taxicab is a motor vehicle that is operated upon the streets or highways on call or demand, accepting or soliciting passengers indiscriminately for hire between such points along streets or highways as may be directed by the passenger or passengers being transported (vans and limousines not included).

Applications for refund are due to be filed by the last day of the month following the end of the quarter. G.S. 105-449.108 disallows an application for refund filed more than three years after the date the application is due. The Post Office postmark is accepted as the date the application is filed.

Fuel receipts are required to be submitted along with the first refund application. The Department will not require fuel purchase invoices to be submitted for each refund application thereafter but reserves the right to require invoices with refund returns in the future. You must retain the fuel purchase invoices with your records in the event you are audited. Motor fuels purchased and sold to employees, returned to vendor, or used for other than official use are not eligible for refund. If you show gallons of tax-paid motor fuel on hand on July 1, 2008 and have not filed a taxicab refund claim, you must include purchase invoices to substantiate the amount of tax-paid fuel on hand. Each invoice must show the date of purchase, name and address of the seller, name and address of the purchaser, type of fuel, number of gallons purchased, price per gallon, and total amount paid. Invoices that show alterations and erasures are not allowed.

Records must be maintained to substantiate the information required on each line of this application. The odometer of each taxicab operated must accurately register miles traveled and personal use mileage of each taxicab must be recorded.

Failure to comply with the instructions or failure to complete the application may result in the disallowance of the refund, a delay in payment, or a reduction in the refund requested. If an audit reveals that an overpayment has been made as the result of an incorrect application, the applicant will be required to repay the amount overpaid plus any applicable penalty and/or interest.
