

EDI Technical Specifications Form Year 2008

The following pages specify our translation requirements for the 813 transaction set, Version 4010, for the North Carolina Sales and Use Tax Return. Note that some segments and data elements that may be optional in the ANSI X12 standard are mandatory in the NC layout. This means that we require this information and it must be present in the transaction set to be a valid tax return. If required segments or required information within segments are missing, the 813 record will be rejected.

Even if you are not an expert on EDI standards, you should be able to set up your software so that it can create an acceptable 813 transaction set by following the specifications on the next few pages. However, it is strongly recommended that you have some general familiarity with EDI and X12.

To learn more regarding the ANSI X12 standards, please contact:

Data Interchange Standards Association
Suite 200
1800 Diagonal Road
Alexandria, VA 22314-2852

Transaction Set Overview

The following diagram shows the 813 transaction set, and the segments required for our program.

HEADER PORTION OF TRANSACTION SET:

ISA Interchange Control Header
GS Functional Group Header
ST Transaction Set Header
BTI Beginning Tax Information

DETAIL PORTION OF TRANSACTION SET:

TFS Tax Form (one for each filing period)
N1 Name
N2 Additional Name Information (if needed)
DTM Date Time Reference (period beginning date)
DTM Date Time Reference (period ending date)

FGS Form Group (for either an E500, E-536 or E-543 document)
TIA Tax Information and Amount
. “
. “
. “
TIA “
. “
. “

TRAILER PORTION OF TRANSACTION SET:

SE Transaction Set Trailer
GE Functional Group Trailer
IEA Interchange Control Trailer

NOTES:

1. There are two “loops” within the detail portion of the transaction set.
 - a. The outer loop, called the “TFS loop” carries the tax return information for a specific sales tax account for a specific filing period. If a return is submitted for just one period, then the 813 will have only one TFS loop. If a return is being submitted for multiple periods, then the 813 will have one TFS loop for each filing period.
 - b. The inner loop, called the “FGS loop” carries tax information associated with specific North Carolina sales tax documents (i.e., E-500, E-536, E-543).

You must **always** include one, and only one, FGS loop labeled “E500” in each TFS loop when you are transmitting sales and use tax return information.

If you are required to file a county breakdown form (E-536), each TFS loop must include one FGS loop, labeled “E536” for each county in which the 2.5% county tax was collected.

If you are required to file a state breakdown form (E-543), each TFS loop must include one FGS loop, labeled “E543” for each municipality/city in which you had non-taxable sales, collected sales tax or collected use tax.

2. All segments are required, unless designated otherwise.

Transaction Set Detail

The charts on the following pages show each required data element for each segment. The following information is given for each data element:

- **identification** (segment name + 01, 02 ...)
- **reference number** in the X12 Standards
- **element name**
- **attributes:**

data type

AN	alphanumeric
ID	code value
DT	date in CCYYMMDD format (except ISA09)
TM	time in HHMM format
R	numeric including minus sign and/or decimal point
N0	whole number

requirement

M	mandatory
O	optional
X	conditional

minimum length**maximum length**

- **element value** required and/or comments

NOTES:

1. All dollar amounts must be dollars and cents.
2. Total Nontaxable Receipts on the E543 FGS loop should be reported as whole dollars only. This element should be formatted, however, as dollars and cents.
3. The tilde (~) is used to separate data elements within a segment. Whenever there is an unused data element within a segment, you must insert an additional tilde to indicate the unused data element.

When programming the EDI format for the E-500, Sales and Use Tax Return, accompanied by an E-536, Schedule of County Sales and Use Tax, and/or an E-543, Schedule of State Sales and Use Tax by City, we require that the following conditions be met:

1. The sum of the E-536 2.5% County Tax should equal line 10 on the E-500.
2. The Mecklenburg County Public Transit .5% Tax on the E-536 should equal line 11 on the E-500.
3. The 2% Food Tax on the E-536 should equal line 8 on the E-500.
4. The 4.5% State Sales Tax column on the E-543 should equal line 4 on the E-500.
5. The 3% State Sales Tax column on the E-543 should equal line 5 on the E-500.
6. The 2.5% State Sales Tax column on the E-543 should equal line 6 on the E-500.
7. The 2% State Sales Tax column on the E-543 should equal line 7 on the E-500.
8. The 2.25% County Rate Tax column applies to ALL counties equal line 9 on the E-500.
9. The 2.5% County Tax Rate; Rate = .025

Note: Currently only available for the following counties: Alexander (02), Catawba (18), Cumberland (26), Haywood (44), Martin (58), Pitt (74), Sampson (82) and Surry (86).
