

EDI 813 SALES TAX MAP Effective 7/2010

## **EDI Technical Specifications Form Year 2009 - Revised**

The following pages specify our translation requirements for the 813 transaction set, Version 4010, for the North Carolina Sales and Use Tax Return. Note that some segments and data elements that may be optional in the ANSI X12 standard are mandatory in the NC layout. This means that we require this information and it must be present in the transaction set to be a valid tax return. If required segments or required information within segments are missing, the 813 record will be rejected. Even if you are not an expert on EDI standards, you should be able to set up your software so that it can create an acceptable 813 transaction set by following the specifications on the next few pages. However, it is strongly recommended that you have some general familiarity with EDI and X12.

To learn more regarding the ANSI X12 standards, please contact:

· “  
· “

### TRAILER PORTION OF TRANSACTION SET:

SE Transaction Set Trailer  
GE Functional Group Trailer  
IEA Interchange Control Trailer

EDI 813 SALES TAX MAP Effective 7/2010

**NOTES:**

1. There are two “loops” within the detail portion of the transaction set.
  - a. The outer loop, called the “TFS loop” carries the tax return information for a specific sales tax account for a specific filing period. If a return is submitted for just one period, then the 813 will have only one TFS loop. If a return is being submitted for multiple periods, then the 813 will have one TFS loop for each filing period.
  
  - b. The inner loop, called the “FGS loop” carries tax information associated with specific North Carolina sales tax documents (i.e., E-500 or E-536). You must **always** include one, and only one, FGS loop labeled “E500” in each TFS loop when you are transmitting sales and use tax return information. If you are required to file a county breakdown form (E-536), each TFS loop must include one FGS loop, labeled “E536” for each county in which the 2% county tax was collected and for each of the counties subject to the 2.25% county tax rate. The state breakdown form (E-543) **is not required** for each municipality/city in which you had non-taxable sales, collected sales tax or collected use tax.
  
2. All segments are required, unless designated otherwise.

**NOTES:**

1. All dollar amounts must be dollars and cents.
2. The tilde (~) is used to separate data elements within a segment. Whenever there is an unused data element within a segment, you must insert an additional tilde to indicate the unused data element.

When programming the EDI format for the E-500, Sales and Use Tax Return, accompanied by the E-536, Schedule of County Sales and Use Tax, we require that the following conditions be met:

1. The General State Rate, **line 4**, changed effective 10/1/2009 to 5.75%.
2. The 2% Food Tax on the E-536 should equal **line 8** on the E-500. Use a county of 101 if supplying this value.
3. The 2% County Rate Tax column on the E-536, effective 10/1/2009 applies to ALL counties, should equal **line 9** on the E-500.
4. The 2.25% County Tax Rate; Rate = .0225, **line 10**, effective 10/1/2009 valid for the following counties:  
**Alexander (02), Catawba (18), Cumberland (26), Haywood (44), Martin (58), Pitt (74), Sampson (82) and Surry (86).**  
**Effective 07/01/2010 valid for the following additional counties only:**  
**Alexander (02), Catawba 18), Cumberland (26), Haywood (44), Hertford (46), Lee (53), Martin (58), Pitt (74), Randolph (76), Rowan (80), Sampson (82), and Surry (86).**
5. The sum of the E-536 **2.25% County Tax** should equal **line 10** on the E-500.
6. The Mecklenburg County Public Transit .5% Tax on the E-536 should equal **line 11** on the E-500.
7. The **0.25% Transit Rate** on **line 12** of the E-500 is not in effect at this time.

EDI 813 SALES TAX MAP Effective 7/2010

## Transaction Set Detail

The charts on the following pages show each required data element for each segment. The following information is given for each data element:

- **identification** (segment name + 01, 02 ...)
- **reference number** in the X12 Standards
- **element name**
- **attributes:**
- data type**

AN alphanumeric

ID code value

DT date in CCYYMMDD format (except ISA09)

TM time in HHMM format

R numeric including minus sign and/or decimal point

N0 whole number

### requirement

M mandatory

O optional

X conditional

### minimum length

### maximum length

- **element value** required and/or comments
