

EDI 813 SALES TAX MAP Effective 10/2011

EDI Technical Specifications Form Year 2011

The following pages specify our translation requirements for the 813 transaction set, Version 4010, for the North Carolina Sales and Use Tax Return. Note that some segments and data elements that may be optional in the ANSI X12 standard are mandatory in the NC layout. This means that we require this information and it must be present in the transaction set to be a valid tax return. If required segments or required information within segments are missing, the 813 record will be rejected. Even if you are not an expert on EDI standards, you should be able to set up your software so that it can create an acceptable 813 transaction set by following the specifications on the next few pages. However, it is strongly recommended that you have some general familiarity with EDI and X12.

To learn more regarding the ANSI X12 standards, please contact:

GE Functional Group Trailer
IEA Interchange Control Trailer

EDI 813 SALES TAX MAP Effective 10/2011

NOTES:

1. There are two “loops” within the detail portion of the transaction set.
 - a. The outer loop, called the “TFS loop” carries the tax return information for a specific sales tax account for a specific filing period. If a return is submitted for just one period, then the 813 will have only one TFS loop. If a return is being submitted for multiple periods, then the 813 will have one TFS loop for each filing period.
 - b. The inner loop, called the “FGS loop” carries tax information associated with specific North Carolina sales tax documents (i.e., E-500 or E-536). You must **always** include one, and only one, FGS loop labeled “E500” in each TFS loop when you are transmitting sales and use tax return information. **All taxpayers** are required to file a county breakdown form (E-536), each TFS loop must include one FGS loop, labeled “E536” for each county in which the 2% county tax was collected and for each of the counties subject to the 2.25% county tax rate. The state breakdown form (E-543) **is not required** for each municipality/city in which you had non-taxable sales, collected sales tax or collected use tax.
2. All segments are required, unless designated otherwise.

NOTES:

1. All dollar amounts must be dollars and cents.
2. The tilde (~) is used to separate data elements within a segment. Whenever there is an unused data element within a segment, you must insert an additional tilde to indicate the unused data element.

When programming the EDI format for the E-500 (Sales and Use Tax Return) accompanied by the E-536 (Schedule of County Sales and Use Tax), we require that the following conditions be met:

1. **Line 4** - General State Rate: Effective July 1, 2011, the State levies a 4.75% general rate of tax on the sales price of taxable tangible personal property, services, or digital property that is sold at retail and is not subject to a reduced rate of tax.

Items subject to the general State rate are also subject to the applicable local sales and use tax rate. See instructions for **Lines 9 through 12** for more information.

2. **Line 8**- The 2% Food Tax on the E-536 should equal **line 8** on the E-500. Use a county of 101 if supplying this value.

3. **Line 9** - The 2% County Rate Tax column on the E-536, effective 10/1/2011 applies to **82** counties, should equal **line 9** on the E-500.

4. **Line 10** - The 2.25% County Tax Rate; Rate = .0225, **line 10**, valid for the following **18** counties:

Effective July 1, 2011, the following county: Cabarrus (13) levied an additional 0.25% tax resulting in the 2.25% county rate. The Department will notify taxpayers if any additional counties levy the additional 0.25% tax.

Effective January 1, 2011, the following counties: Duplin (31) and Robeson levied and additional 0.25% tax resulting in the 2.25% county rate. The Department will notify taxpayers if any additional counties levy the additional 0.25% tax.

Effective October 1, 2010, the following counties: Alexander(02), Catawba(18), Cumberland(26), Haywood(44), Hertford(46), Lee(53), Martin(58), New

EDI 813 SALES TAX MAP Effective 10/2011

Hanover(65), Onslow(67), Pitt(74), Randolph(76), Rowan(80), Sampson(82), Surry(86) and Wilkes(97) levied an additional 0.25% tax resulting in the 2.25% county rate. The Department will notify taxpayers if any additional counties levy the additional 0.25% tax.

Items subject to the general State rate (Line 4a and 4b) are also subject to the 2.25% local sales and use tax rate if sold or delivered into the above listed counties.

5. The sum of the E-536 2.25% County Tax should equal line 10 on the E-500.

6. Line 11 - Transit County Rate 0.5%: Items subject to the general State rate, (Line 4), are also subject to the 0.5% Transit County sales and use tax rate if the item is sold or delivered in Mecklenburg County.

7. Line 12 - Transit County Rate 0.25%: Items subject to the general State rate, (Line 4), are also subject to the 0.25% Transit County sales and use tax rate if the item is sold or delivered in a county which levies the tax. Ninety-two counties are authorized to levy the 0.25% Transit local rate, but have not levied the tax. Therefore, until notified, Line 12 will be blocked for any entry of "Receipts" or "Purchases for Use."

8. Line 13 - Total State and County Tax: The total State and county tax has been automatically calculated by adding the tax from Lines 4 through 12.

9. Line 18 - Less Prepayment for This Period (*This line is for use by taxpayers remitting \$15,000 or more in tax per month who have made a prior prepayment for this period.*): Enter the total amount of any electronic payment made for this period prior to filing this return.

10. Line 19 - Prepayment for Next Period: Beginning with the monthly return for October 2010, taxpayers who are consistently liable for at least \$15,000 a month in State and local sales and use taxes must make a monthly prepayment of the next month's tax liability. The prepayment is due when the monthly return is due. The prepayment must equal at least 65% of any of the following:

- (1) the amount of tax due for the current month,
 - (2) the amount of tax due for the same month in the preceding year, or
 - (3) the average monthly amount of tax due in the preceding calendar year.
- Penalties or interest will not be due on an underpayment of a prepayment if one of these three calculation methods is used.

Enter the amount of payment to be applied to the next monthly period.

Transaction Set Detail

The charts on the following pages show each required data element for each segment. The following information is given for each data element:

- **identification** (segment name + 01, 02 ...)
- **reference number** in the X12 Standards
- **element name**
- **attributes:**
data type

AN alphanumeric

ID code value

DT date in CCYYMMDD format (except ISA09)

TM time in HHMM format

R numeric including minus sign and/or decimal point

N0 whole number

requirement

M mandatory

O optional

X conditional

minimum length

maximum length

- **element value** required and/or comments
