**IMPORTANT NOTICE: SALES OF BAKERY ITEMS WITH EATING UTENSILS
BY ARTISAN BAKERIES**

This notice provides clarification regarding sales of bakery items by an artisan bakery and what constitutes being “sold with eating utensils.”

For purposes of N.C. Gen. Stat § 105-164.13B(a)(4), eating utensils only need to be made available to purchasers by an artisan bakery in order for a sale of bakery items to be considered sold with eating utensils and, therefore, subject to the 4.75% general State and applicable local and transit rates of sales and use tax. Eating utensils include plates, knives, forks, spoons, glasses, cups, napkins, and straws.

An “artisan bakery” is a bakery that meets all of the following requirements:

- (1) It derives over eighty percent (80%) of its gross receipts from the sale of bakery items.
- (2) Its annual gross receipts, combined with the gross receipts of all related persons as defined in [Section 267(b) or 707(b) of the Internal Revenue Code], do not exceed one million eight hundred thousand dollars (\$1,800,000).

Sales of bakery items by an artisan bakery without eating utensils or without eating utensils being available to purchasers are only subject to the 2% local rate of tax.

If a bakery does not meet all of the above requirements for the artisan bakery exemption, the 4.75% general State and applicable local and transit rates of sales and use tax apply on sales of all bakery items by such bakery.
